

Instructions: fill in all fields on the day of the assessment or within 24 hours. The time saved metric and NPS score are the two most important data points — they are hard to reconstruct later. This document becomes the sales proof for every subsequent school conversation.

School and assessment details

| | | | |
|----------------------|----------------------|--|----------------------|
| School name | State | Sector (govt / catholic / independent) | Enrolment |
| <input type="text"/> | <input type="text"/> | <input type="text"/> | <input type="text"/> |
| Contact name | Role | Email address | Date of assessment |
| <input type="text"/> | <input type="text"/> | <input type="text"/> | <input type="text"/> |
| Year level assessed | Writing genre | Number of students submitted | Time limit given |
| <input type="text"/> | <input type="text"/> | <input type="text"/> | <input type="text"/> |

Key metrics — fill in on the day

| | | | |
|---|---------------------------------------|---|---|
| Time saved vs manual marking | Class average (0-100) | Teacher NPS (1-10, likelihood to recommend) | % above Developing band |
| <i>Ask teacher: how long would manual marking normally take for this class?</i> | <i>From Staff view → Snapshot tab</i> | <i>How likely 1-10 to recommend to a colleague?</i> | <i>Consolidating + Extending combined</i> |
| <input type="text"/> | <input type="text"/> | <input type="text"/> | <input type="text"/> |

Teacher quote — for use with permission

Capture a direct quote from the teacher about their experience. First impressions on the day are the most useful and honest. Quote: _____
 Teacher name: _____ Permission to use publicly: Yes / No / Anonymised only

What worked and what needs fixing

What worked well — keep and amplify

What needs fixing — for v3 backlog

Next steps

Will this school convert to paid? Notes from conversation with principal.

Referral: who did they suggest? Name, school, email.
